-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1755

This action is in response to applicants' amendment of 3 January 2005. The amendments to the claims have overcome the objection over the claims 20 and 23. Applicants response has overcome the 35 USC 112, first paragraph rejection since it pointed out where there is support for the range claimed in claim 9 and it has clarified the compositions of the formulas containing parenthesis. Applicant's arguments with respect to the art rejection have been fully considered but they are not persuasive.

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c).

Applicants' comment with respect to supplying a new oath as soon as it is executed is noted.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 24 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. patent 6,734,631.

This patent teaches a light source comprising a source of plasma discharge that emits EM radiation, a portion of which has a wavelength of less than about 200 nm and a phosphor layer comprising a mixture of UV-C phosphors and phosphors that can be excited by UV-C radiation (col. 3, lines 10-11 and lines 20-27). UV-C phosphors are those that absorb wavelengths shorter

Art Unit: 1755

than 200 nm and emit wavelength longer than 200 nm. The reference teaches the claimed light source and phosphor composition.

Applicants argue that the reference teaches that the two phosphors are located separately. Column 3, lines 20-27 teaches a mixture of UV-C phosphors and phosphors that can be excited by UV-C radiation, which indicates that the phosphors are located together. The rejection is maintained.

Claims 2-23, 25 and 26 are allowable over cited art of record for the reasons given in the previous action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melissa Koslow whose telephone number is (571) 272-1371. The examiner can normally be reached on Monday-Friday from 8:00 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached at (571) 272-1362.
